

Technical specification - Palsatech logging table _PT80s

Product information:

Product name: Palsatech logging table
Model: basic
Configuration: Inclining 40 degrees
Load capacity 145 kg / m
Core box configuration: horizontal
Drawing number: 6898A0012

Product dimensions:

Width: 100 cm
Length: 220 cm (one module)
Total height: Adjustable, 271-317 cm,
table lower edge 74- 94 cm
Weight: 70 kg/ module
Roller table/frame depth: 100 cm
Rollers: 80 cm
Core orientation rack: 5 x 5 cm

Main structures & materials:

Table frame & legs: U-profile, square
pipe, S355, 3 mm.
Painting: Powder painted, Green RAL6017
(Standard)
Rollers: Galvanized steel with deaccelerating
bearings
Core box support bearings: Galvanized steel
Core orientation rack: finished stainless
steel, SS316

Certificates and protocols:

CE marking according 2006/42/EC
Country of origin: Finland

Lightning installation:

Angle of the light: Adjustable
Light bulbs: LED color temperature e.g. 4000 - 6500K
or other
Light output: 10670lm / 129W
Operating voltage: 100-305VAC
Installation: plug and play, rapid connectors
between the lights

Additional equipment:

Integrated laptop desk
Sample box lifting device
Camera arms, mounted to the table
Quick locks for the table end stoppers
Power rails, installed to the light supports
